SUMMARY

I am highly motivated to learn and contribute to innovative projects in a collaborative team environment. I am excited to apply my Html, CSS and JavaScript expertise to develop creative web applications and explore new technologies. My goal is to continually enhance my programming skills while delivering high-quality code that meets the needs of clients and users.

SKILLS

- **C, C++**
- **HTML, CSS**
- **JavaScript**
- **MySQL**
- **SQL Queries, Data Modeling, ER Diagrams**
- **Microsoft Office Suite (Word, Excel, PowerPoint)**

PROJECTS

Personal Portfolio Website

Technologies Used: HTML, CSS, JavaScript

Developed a fully responsive personal portfolio website to showcase my skills, projects, and professional experience. The site serves as a digital resume and creative hub for potential employers, clients, and collaborators.

Portfolio website includes:
-**Custom Design & Layout**: Created a modern, user-friendly design with a focus on clean aesthetics and easy navigation.
 -**Project Showcase**: Displayed detailed case studies of personal and professional projects, highlighting skills and technical expertise.
 -**Responsive Design**: Implemented responsive design to ensure optimal viewing experience across all devices.

Online Calculator Website

Technologies Used: HTML, CSS, JavaScript

Developed an interactive and user-friendly online calculator website that performs basic arithmetic operations such as addition, subtraction, multiplication, and division. The project involved creating a responsive, dynamic, and visually appealing interface using HTML, CSS, and JavaScript.

-**User Interface**: Designed a clean, intuitive layout with buttons for basic operations and a display area for input and results.
-**JavaScript Functionality**: Implemented JavaScript functions to handle arithmetic calculations and update the display in real-time.
-**Responsive Design**: Ensured the website was fully responsive, providing a smooth experience on desktops, tablets, and mobile devices.
-**Error Handling**: Incorporated error handling for invalid inputs (like dividing by zero) and improved user

experience with clear feedback.

Age Calculator Website
Technologies Used: HTML, CSS, JavaScript

Developed an intuitive Age Calculator website that allows users to input their birthdate and calculate their exact age in years, months, and days. The project involved creating a simple, user-friendly interface and integrating JavaScript to perform date calculations

-User Input & Validation: Created a form to collect the user's birthdate and incorporated input validation to ensure correct date format and prevent errors.
- **JavaScript Logic**: Implemented date manipulation and calculation logic using JavaScript to accurately compute the age in years, months, and days.

EDUCATION

Bachelor's of Computer Applications (BCA)   **2021-2024**
Jai Narain Vyas University - Jodhpur, Rajasthan

Master's of Computer Applications (MCA)   **2024-2026**
Global Institute of Technology and
Management - Gurugram

SOFT SKILLS

- Problem solving
- Collaboration and communication
- Public Speaking
- Time Management
